Are you on track to hit your output goals as listed above? If not, what is preventing you from reaching those output goals?

- At this stage, I am optimistic that we will hit our output goals. We have added two staff to assist with recruiting and working cases until a volunteer becomes available.

Please provide one (or more) inspiring story over the last quarter. This could be about your organization or a special impact story. Please include any pictures/graphics you feel necessary with your report.

- When this child came into care the foster parents were informed that she would have significant delays due to the injuries she sustained from being shook by her biological mother. They were informed that she may have trouble walking and talking. Our advocate has been visiting this child since case opening and has watched the child thrive and grow. During the advocates' last visit she observed the child stand and walk without assistance. Our advocate also observed the child to say "hi" "momma" "no" and "bye bye". The foster parents informed the advocate that they have worked hard with doctors and service providers to get the child where she is today.
